Contents

File Tree

```
most_used/
└── most_used.sh   (to submit)
```

Authorized commands : You are only allowed to use the following commands

- builtins
- head(1)
- tr(1)
- uniq(1)
- sort(1)
- cut(1)

Reminder : Grant execution permission to your scripts before pushing them

1 Goal

Write a script printing your top ten most used commands (taken from your `~/.bash_history`).

> **Tips**
>
> Having a look at `cut`, `sort`, `uniq` and `head` *man* pages might be a good idea.

```
42sh$ ./most_used.sh
98 echo
55 git
49 ls
40 vim
34 grep
24 scp
21 sudo
20 man
19 gcc
15 at
```

I must not fear. Fear is the mind-killer.
